

Martin Says Kaiser Suggested 6-Company Combine to Make 500 Flying Boats for U.S.

Britain Will Pull Troops From Greece, Italy, Cut Reich Force

Statues to be Taken From Route 28 Site

Shokan, July 30—It is reported that the famed Brunel Indian statues near the Boiceville post office will be removed by the state in preparation for the re-alignment of Route 28 at that point.

The statues which include an Indian maid, a brave and a totem pole, were sculptured by the late Emil Brunel, widely known New York photographer and resident of Boiceville.

The figure of the Indian maid, facing the Wittenberg Range in supplicating gesture, is symbolic of a princess of the Moonahav tribe whose habitat was at the base of the mountain range in northwestern Olive.

Skeleton Is That Of Man, 25, Says Laboratory Report

Rosendale Bones Buried About 20 Years, Is Estimate Placed by Taylor

An investigation conducted by the Kingston Laboratory to determine the time of interment and other data relative to a skeleton discovered in Rosendale July 17 revealed that the bones were those of a man, approximately 25 years of age, according to a report released by the sheriff's office this morning.

The skeleton was found on the property of Teresa Caro, James street, Rosendale, by her son-in-law, Warren Fredericks, while he was excavating for a cellar foundation about 20 feet from the rear of the house. In clearing away some dirt, Fredericks' shovel struck some of the bones and further digging unearthed the skeleton, which was buried about four feet deep, with the head facing south and the feet north.

Fredericks notified Sheriff George Smith who conducted an investigation with County Investigator Clayton Vreeland. The skeleton was brought to the local laboratory for examination.

In a report to the sheriff's office this morning, Dr. J. S. Taylor, director of the local laboratory, who conducted the examination, revealed that the complete findings comprised a skull, both femora and tibia, portions of the fibula, one humerus, certain pelvic bones, a few of the ribs, several vertebrae and some foot bones.

All of the bones, according to Dr. Taylor, were in a marked state of deterioration, indicating that the skeleton had been buried for a long time, but that the individual was not more than 25 years of age.

A close examination of the shape and contours of the skull further disclosed that the individual was undoubtedly of the Caucasian race. The forehead was prominent, with no visible evidence of recession. There were no apparent signs of traumatic injury sustained by the skull, dispelling for the present the probabilities of the person having been struck on the head.

Teeth Still Present

Many teeth were still present in the upper and lower jaws, and the fact that the wisdom teeth had emerged, coupled with the general bony development of the skeleton, would indicate that the individual was at least 25 years old, if not more. That the person may have been considerably older than 25 is supported by the fact

Miners Will Be Asked to Work Extra Hour Daily to Help Coal Output; Quiet About Palestine Troops

London, July 30 (AP)—A Socialist source said Prime Minister Attlee told labor legislators today that Britain would slash her military commitments in Germany, Italy and Greece almost immediately because of the nation's looming economic crisis.

Attlee won a virtual vote of confidence from labor members of Parliament after explaining to them the "broad lines" of his plan for meeting the crisis.

The Socialist source, who is connected closely with labor members of Parliament, said Attlee promised quick and complete troop withdrawals from the Venezia Giulia sector of northeast Italy and from Greece and substantial reductions in the British occupation forces in Germany.

Left wing labor party members have been demanding reductions in the armed forces, which totaled 1,297,300 men July 1.

Carpenters Union To Vote Contract At Session Tonight

Quick Will Read Papers to Membership; Says Most Pilgrim Men Back

The contract between the Pilgrim Furniture Company and Local 1545, Carpenters Union A.F. of L. will be submitted to the membership of the union tonight at a meeting of the members at the offices of the Kingston Metal Trades Council at 8 o'clock, at 277 Fair street.

Dewitt B. Quick, president of the Kingston Metal Trades Council, will preside at tonight's meeting and will read the proposed contract to the members of the Carpenters Union.

"If this contract is approved by the members of Local 1545 tonight," stated Mr. Quick, "it will be signed by the officials of the company and the union and will take effect immediately."

The president of the Metal Trades Council also stated that "most of the former employees of the Pilgrim Furniture Company have returned to work and those who have not will probably be returned as fast as positions at the company plant permit."

An approval of this contract at tonight's meeting would terminate a long struggle between the management of the Pilgrim Furniture Company and its employees which was the cause of a short term strike at one period during the protracted negotiations.

Director of Airports Removal Directed

New York, July 30 (AP)—Elmer Haslett, city director of airports, was found guilty of misconduct in office today and his removal from office as of May 30 was directed by Frederick G. Reinicke, commissioner of marine and aviation.

Reinicke announced the decision at his office, Pier A, The Battery, in the presence of Haslett, his attorneys, who indicated that they would appeal the decision, representing the corporation council's office and of the department of investigation, officials of the Gulf Oil Corporation and reporters.

Shokan Correspondent Fills Out 30 Years for Freeman

C. A. Winchell, Shokan correspondent for The Freeman, is celebrating his 30th anniversary in that capacity. Over the years Mr. Winchell has developed one of the most widely read rural columns in the Catskill mountains.

To Freeman readers Winchell's Corners, Shokan, is as geographically specific as Times Square, New York—or Broadway and 42nd street. Kerhonkson, Shokan, if you've followed Mr. Winchell at his "hub of the reservoir country" and Winchell's store, Winchell's Corners, Shokan, New York, is the clearing house for news from that area.

Mr. Winchell, both by instinct and experience, is a newspaperman. He was educated at Yale and then did newspaper work which eventually landed him in Tampa, Florida. Like most native Ulster county folk, he didn't stay away from his green hills too long. When he returned he got himself a newspaper connection. To The Freeman copy desk the envelopes addressed City Editor and postmarked Shokan are as familiar as the days of our news themselves.

From time to time various stories of mountain folk and events have appeared in The Freeman as writings of The Old Timer. These pieces were from Mr. Winchell's typewriter.

Mr. Winchell is a comparatively young man, and he's also a character. Occasionally, when errors appear in our daily columns, he will let forth a typewritten blast at Ye Ed (his salutation). When he prattles a good job he does it, as he writes of the point of embarrassment. His enthusiasm for a good job is as emphatic as his derision for error. Whatever comes from Winchell's Corners has its earmark. His reactions are proof of The Freeman's proud record, that whoever reads The Freeman reads everything in it.

A little item to The Freeman copy desk, buried in his Shokan news, but extracted because he deserves recognition by prefatory copy desk remarks, is as follows: Your columnist is reminded that this year marks the 30th anniversary of the Freeman.

Japanese Report Tells Effects of Hiroshima Attack

Material Compiled by Japanese Scientists for High Command; Kept Supersecret

By FRANK L. WHITE

Tokyo, July 30 (AP)—A hitherto unpublished Japanese official report on the atomic bombing of Hiroshima in 1945 says that thousands who apparently survived the awesome blast began dropping as they fled the flaming city.

I have just seen the only known extant copy of this report, which also discloses that Japanese scientists quickly guessed that an atomic bomb had hit Hiroshima and that uranium was the agent used.

The compilation of this report was begun by experts on the scene the day the bomb hit on that historic August 6 and that led down a trail which last uncovered the report itself.

This supersecret report to the high command in Tokyo said that all persons within range of the blinding flash were so stunned that even antiaircraft battery gunners forgot to shoot as they were involved at the monstrous white cloud mushrooming over the city.

Immediately after the blast, thousands of those who escaped a direct scorching or injury from flying debris began to suffer from strange sickness, the report continued. Although unnamed, they began falling while trying to get out of the city.

Caused Few Fires

The Japanese noted that the bomb caused very few fires except in the forest on the hills behind Hiroshima. They attributed the fire which raged through shattered houses in the center of the city to such causes as electrical shorts and overturned cooking fires.

Japanese investigators reported they found dead fish in a pond in the center of the city and in the river which flows through town, and dead birds in the forest.

The blast apparently got rid of insects too. No flies were seen on corpses and "those who had to camp out in the ruins never suffered from mosquitoes as long as three nights."

As soon as traces of ray damage were noted, the Japanese sent Geiger counters to Hiroshima. The report said that on August 11, radioactivity measured on counters ran as high as 120 counts a minute at a shrine near the blast center, as against a normal count of 27.

Confronted with the evidence of radiation, which also showed on photograph negatives taken of the explosion, the scientists guessed it was an atomic bomb that hit them, suggested uranium, and speculated that the bomb contained from 2 to 33 pounds of the element.

After discussing the principles of an atomic bomb, the report added:

"As for the technical problems in practice to realize the above principles we cannot but leave them all to inventors in the future."

But the scientists knew that the United States already had the bomb, and within a few days after the on-the-spot report from Hiroshima arrived, Tokyo began peace negotiations.

Official Probe Begins

The report says an official investigation was begun.

They Answered Her 'Ad'

Mrs. Roosa Had All She Could Cope With

Mrs. Hannah C. Roosa, 171 Hooker street, inserted a small classified advertisement in last night's Freeman and ordered a three-time publication.

This morning Mrs. Roosa called The Freeman and said, "Please take my ad out of the paper. I had so many replies last night it's driving me crazy."

The advertisement, under Help Wanted—Female, was as follows: YOUNG GIRL—to take care of two boys 5 and 7; daytimes. Phone 860-R after 6 p. m.

Air Policy Board Meets

Members of President Truman's temporary air policy board held their first meeting in Washington, D. C., today. From left to right: George P. Baker of Cambridge, Mass., Harvard professor; Thomas K. Finletter, New York attorney, chairman; and Arthur D. Whitehead, New York financier. Back row: Palmer Hoyt (left), publisher of the Denver Post, and Henry Ford II of Detroit. (AP Wirephoto)

Hughes Says Facts Should Be Told On Brewster Angle

Four Questions Directed at Brewster by Plane Manufacturer in Statement

Los Angeles, July 30 (AP)—Howard Hughes issued a statement today demanding that Sen. Owen D. Brewster, (R-Me.), chairman of a Senate war investigating committee, "give the public the facts concerning his abortive attempt to intimidate and coerce me by offering to call off this investigation of my airplane projects if I would agree to merge T.W.A. (Trans World Airline) with Juan Trippe's Pan American Airways."

In Washington, Senator Brewster told a reporter he would have no comment until he had seen the complete text of Hughes' statement.

The Hughes statement added: "I direct these four questions at Senator Brewster and demand an answer:

- "1. At lunch in your suite at the Mayflower Hotel, Washington, D. C., did you or did you not offer to call off this entire investigation if I would agree to merge T.W.A. (Trans World Airline) with Pan American Airways and support your community airline bill?"
- "2. Did I or did I not reply that I had already promised Juan Trippe that I would give him my answer in 30 days?"
- "3. And did Juan Trippe subsequently make a flight across the country to see me, and spend two days closeted in secret conference with me at Palm Springs, Calif., or did he not?"
- "4. And when you returned from Europe thereafter, did Juan Trippe tell you to hold up and not push this investigation for a while, as he and I were still trying to get together, or did he not?"

"Brewster was perfectly frank and laid the cards on the table. Under these circumstances, and since the threat of the investigation obviously was created in the first place . . . to maneuver me into the merger with Pan American Airways, I did not consider that my giving in to their demands would necessarily be dishonest on my part."

"In other words, since I felt that the birth of the investigation was illegitimate, I did not consider that its elimination would be a crime."

"However, I wanted to think it over carefully and be sure my interpretation was correct."

"I never did reach a final decision on the merits, because, at the end of our negotiations, the merger deal which Juan Trippe offered was not one that I considered equitable from the standpoint of the other stockholders in my company, T.W.A."

New Meters Installed

Added to the growing list of parking meters throughout Kingston, are 48 new stanchions installed on the North Front street area up to Crown street, Police Chief Ernest A. Boss said today. Work on the meters was completed Monday and they are now in operation.

Captain Hickey Backs Idea To Make Span State Memorial

Write-Ins Light In Area Primaries

Surprisingly Small Labor Vote Is Recorded in City, County

Names of several city and county Democratic candidates were written in on ballots of the American Labor Party Tuesday in what early returns today indicated was one of the lightest primary days in recent years.

The returns which were incomplete at noon today showed only one major party contest in the city where in the first district of the 11th Ward Eugene Cornwell, incumbent alderman of the ward, lost in the write-in nomination on the Republican ticket for supervisor to Robert T. Phinney 55 to 19.

The poll for committeeman in the district, however, showed a total of 64 for Cornwell, 53 for Phinney and 19 for Abram Van Ness.

Returns from scattered districts in the city and county filed this morning showed a surprisingly light labor party vote, and the highest vote in the returns received at the election board were from the first district of the Fifth Ward.

The poll there showed six votes for William F. Edelmut, Democratic candidate to succeed himself, and five votes for Joseph E. Saccomani, the party's candidate for Alderman-at-large and six for Walter Keefe, Democratic candidate for sheriff.

The name of William McCabe for county commissioner of welfare received six votes in the labor party write-in in the same district.

Retired Naval Official Says Snyder Idea Is 'Fine'; Forecast News in '38

The proposal of Frederic Snyder, 34 Lucas avenue, local traveler and lecturer, to incorporate a veterans' memorial motif in the planning of the bridge to be built over the Hudson River from this city to Rhinecliff, was backed in a statement today by Captain Andrew S. Hickey of 446 Broadway, U. S. Navy, retired.

Mr. Snyder "is to be congratulated" for advancing such a "fine idea," Captain Hickey said. He indicated that the city should not forget its own local interest in a memorial project, but felt that the bridge memorial would be of general interest to the region it most immediately served.

Letters were mailed to the New York State Bridge Authority and to D. B. Steinman, outstanding bridge architect, by Mr. Snyder yesterday to stir interest in the proposal.

Contents of the letter mailed to the bridge authority and comment on Mr. Snyder's news forecast on bridges for 1938 follows:

July 29, 1947.

Dear Mr. Steinman:

The Kingston Daily Freeman states that you have been commissioned to aid the New York State Bridge Authority—in the design and construction of the Kingston-Rhinecliff Bridge.

I rejoice in your assignment, because I know of your rare skills and established record.

In the earliest days of the promotional effort to secure the bridge, I wrote to Mr. James F. Loughran and others and suggested that the structure be shaped to

Dutch Will Probe Cause Of Plane Crash Killing Nine

Batavia, Java, July 30 (AP)—The Dutch army said today it would be a cause of "great regret" to the Netherlands government should it develop that a plane reported downed by Dutch fighters near Jogjakarta was indeed an unarmed transport carrying medical supplies from India.

Shooting down of the plane as it came in for a landing was announced yesterday by the Indonesian government radio at Jogjakarta, which said nine persons were killed in the crash.

Commenting upon the Indonesian broadcast, an official statement from Netherlands army headquarters said that two Dutch fighter pilots yesterday had reported intercepting a plane which they believed to be a former Japanese "Betty Bomber" and seeing the plane crash near Jogjakarta after warning bursts from their guns.

The statement declared, however, that the identity of the plane was "not clearly established" and added:

"If it is indeed the case that the aircraft shot down was a Dakota loaded in Singapore with medical supplies for Jogjakarta, those responsible have been guilty of culpable carelessness, the serious outcome of which is greatly regretted by the N.E.I. government."

The Dutch said they had no advance notice that any plane bearing medical supplies was en route to Jogjakarta.

"Under present conditions," the Dutch statement declared, "the military air force naturally has received instructions to put a stop to all republican air activities."

"Any aircraft flying above republican territory without clear identification marks and whose pilot acts as though he were trying to remain unobserved or attempting to escape, is running a serious risk."

The official Dutch version of

Kaiser Was Key Person In Proposal

Hughes Says Hearing Is Attempt to Force T.W.A. Merger With Pan American

Profit Was Goal

Martin Says Kaiser Cited Gain Potential as Good

Washington, July 30 (AP)—Glenn L. Martin said today that Henry J. Kaiser proposed in July, 1942, the formation of a six-company combine to manufacture 500 flying boats "at a good profit" on a government order which Kaiser said he alone could get.

Martin, Baltimore aircraft manufacturer, told the Senate War Investigating Committee that Kaiser, wartime shipbuilder, approached him with this proposition.

It was some time later, Martin said, that Kaiser obtained a government contract jointly with Howard Hughes to build three 400-ton cargo planes.

The committee is now holding hearings here in an effort to determine what were the circumstances of the award of \$40,000,000 in plane contracts to Kaiser and Hughes, and why no plane in flying condition has been delivered under an \$18,000,000 contract for the three flying boats.

As the hearings were resumed, with Martin in the witness chair, Hughes, Hollywood film producer and airplane designer, issued a statement in California asserting that the investigation is an attempt to "coerce" him into agreeing to a merger of Trans World Airlines with Juan Trippe's Pan American Airways. Hughes has an extensive interest in T.W.A.

Hughes declared that Senator Brewster (R-Maine), chairman of the Senate group, once offered to "call off" the investigation, if Hughes would agree to the merger.

"Slinging mud" said a statement, Brewster commented that he did not intend to "engage in running controversy" with Hughes.

Martin, whose engineers designed the 140-ton Mars flying boat, said that five years ago yesterday Kaiser came to his Baltimore plant and was in-pressed in forming a company to build 500 of these craft.

Cites 'Good Profit'

Kaiser, a ship builder, with no previous experience in the aircraft field, suggested that five of the largest companies, including Martin's, combine to furnish engineers and capital for a venture he would direct, the witness said.

"He said there would be a good profit in it," Martin commented, adding that his company at that time was interested primarily in fulfilling contracts for the army and navy for other type ships and sought only a "reasonable profit."

Senator O'Connor (D-Md.) asked what Kaiser proposed to contribute.

Martin said that if five companies agreed to share in the venture, Kaiser said he would furnish one-sixth of the men needed and one-sixth of the capital.

"He said he could get the order for the ships and I probably could not get the order," Martin continued. "He didn't explain how. He said such an order wasn't within my reach or that of the other airplane manufacturers, but he could get the order."

Chairman Ferguson (R-Mich.) asked why Kaiser thought he alone would be successful in obtaining such a contract.

"It was obvious," Martin replied, "that he was thinking of some other method than the army-approved program. They had a fixed program and if they built flying boats, something else could not be built. It was a condition with which we could not quarrel."

Admits Variance

Martin said Kaiser admitted the proposal was "at variance" with the approved army-navy program, but that he could have it okayed by appealing to top officials.

"He just said he would go to high places to get the order," Martin said. "He didn't say what the high places were and I did not ask him because it was his business and not mine."

"I told him I was interested in undertaking to force a program beyond the program that had

County Legion Installs Officers For Coming Year

The meeting of the Ulster county organization of the American Legion was held July 24 at Lloyd Post 193, Highland, N. Y. The meeting was called to order by Commander Thomas Bohan. Immediately following this was the installation of officers for the ensuing year. Past Commander Edward J. Luedtke of Kingston Post was the installing officer and installed the new county officers.

John Filiberti, who was sponsored by Lloyd Post and sent to Boy's State gave a very good talk upon the activities. Resolution was received from Kingston Post 150, endorsing Legionnaire Conrad J. Heiselman as a candidate for Department Commander to the American Legion Department of New York 1948. It was moved by Comrade Wesley O'Brien, seconded by Comrade George Nichols and Charles Hummer. After considerable discussion in which Comrade Luedtke and Chaplain Brown expressed themselves as favoring the resolution, it was adopted.

Past Commander Andrew J. Murphy, Sr. of Kingston Post was appointed by Commander Schantz as temporary chairman of the delegates to the New York State Conference of the American Legion which is being held July 30th to August 1st at Niagara Falls, New York.

Comrade George Nichols of Rosendale was appointed chairman of the 52 Club and is also to work with Commander Schantz in revising the by-laws.

Grable Got \$299,333

Philadelphia, July 30 (AP)—Betty Grable, 30-year-old St. Louis-born movie star, drew a bigger pay check last year than her boss, Miss Grable—Mrs. Harry James off the screen—was paid \$299,333 in 1946 by 20th Century-Fox Films, the company's annual report to the Securities and Exchange Commission disclosed. On the other hand, Spyros P. Skouras, onetime St. Louis busboy who now heads 20th Century, was paid a gross of \$255,922 and Darryl F. Zanuck, vice president in charge of production, received \$260,000 the report showed.

Shipwreck Under Probe

Andrei Musu and two others are reported under investigation by Rumanian officials, following their recent secret undertaking to transport a group of Jews to Palestine for a large sum. The Jews embarked at Constanta aboard an old steamer which ran ashore in the Adriatic. Investigation is said to have showed that the wrecking was intentional, to enable crew members to get the passengers' luggage. Other sailors testified that the vessel was insured for more than its value and that Musu had promised the sailors large sums of money.

Vessels Taken Over

A new enterprise has been started in Shanghai, where 77 Chinese steamship owners have organized the China Relief Service, a steamship-management company, to operate all Chinese Relief vessels: plying coastal and river routes. Primarily responsible for delivery of relief supplies, the firm also accepts commercial cargoes when space is available. With its shares valued at CN\$10,000 each, the firm's capital is CN\$600,000,000, equivalent to about \$50,000 in American money.

and Joseph Amato received five for alderman. Eleven votes were cast for Charles Perry as a member of the county committee of the party.

Only two or three votes were polled in the other districts which made returns this morning.

Edelmuth, Keefe and Saccoman received one vote each on the labor party ballot in the Third Ward, first district, where Charles A. Ryan received two for alderman and Robert Gregg, one for supervisor.

Two votes each were cast in the second district of the same ward for Edelmuth, Keefe and Saccoman, and two each for Ryan and Gregg for alderman and supervisor, respectively. Jesse McHugh, Republican candidate for coroner, received one vote and William McCabe received two for county welfare commissioner.

Even lighter voting in the second district of the Fourth ward gave Saccoman one vote, Charles E. Smith, Jr., one for supervisor and John Buboltz, one for alderman.

Edelmuth and Saccoman received two votes each in the first district of the Sixth Ward and McCabe two for county welfare commissioner. Three votes were cast for James Murphy for coroner and two for Abram Rosenthal for alderman.

Bernard Pauker received one vote for mayor in the second district of the Second Ward and Elga Curtis one for nomination as alderman. Pauker received two votes for mayor in the second district of the 12th Ward where Ethel Friedman received a vote for alderman and Morris Friedman one for supervisor.

President Signs Many Bills; Cash Items Included

Washington, July 30 (AP)—President Truman worked rapidly at his desk today on legislation passed by Congress in its final days before adjournment, signing many bills including important government appropriation measures.

Bills signed into law by Mr. Truman include:

\$5,482,529,633 appropriations for the army;
\$8,188,822,927 appropriations for independent offices, providing funds for a dozen big federal agencies, including the Veterans Administration and the Atomic Energy Commission;
\$613,146,326 appropriations for the Agriculture Department;
\$35,400,000 appropriations for a score of miscellaneous government corporations, including the National Housing Agency, the Institute of Inter-American Affairs, and

\$18,700,000 for the Tennessee Valley Authority.
Increasing by 20 per cent the pension payments to Civil War, Spanish-American, Boxer Rebellion and Philippine Insurrection veterans and their widows and children, affecting among others 90 Civil War and 11,700 Spanish-American War veterans.

New York, July 30 (AP)—Miss Louise Christman, 49, supervisor of operating rooms at Columbia-Presbyterian Medical Center since

HEARTBURN

Believed in 5 minutes or double your money back. When stomach acid causes painful, sudden burning, heartburn, indigestion, or the burning, itching, and swelling of the throat, use the famous, effective, and safe, "BELL-ANS" for Acid Indigestion 25¢.

1930 and an instructor in nursing on the faculty of Columbia University, died last night at Harkness Pavilion of Presbyterian Hospital. Miss Christman, born at Salamanca, N. Y., February 17, 1898, was graduated from Presbyterian Hospital School of Nursing in 1923. She leaves a brother, Frederick, of Buffalo; and two sisters, Mrs. Freda Losel, of Buffalo, and Mrs. Emma Kleinow, of East Hampton.

Barranquilla is the largest Caribbean seaport of Colombia.

Britain Will

Continued from Page One

consultations would be affected by any drastic cut in British forces, was said by the Socialist source to have kept strictly silent during the caucus.

The source, said Attlee repeatedly drew attention to Bevin's continued efforts on behalf of British interests overseas.

A bulletin issued after the meeting said the members had expressed "complete satisfaction of the party" with the Prime Minister's statement and added: "The members assured him of the united support of the Parliamentary Party (The Labor MP's) in all the measures which the government thought it necessary to take."

Attlee faced the legislators, many of whom had been critical of his leadership, at a strictly private caucus. Details of the explanation which he made at the caucus were not made public, but the bulletin issued after the meeting said he would explain his plan in the House of Commons next week.

Earlier, a well-informed source had said that Attlee would call upon Britain's miners to work out an extra hour daily to increase the production of critically needed coal—principal prop of the nation's trembling economic structure.

The source said Attlee would suggest time and a half pay for the overtime.

Conference Scheduled. Later in the day Attlee was scheduled to confer with leaders of the national union of mine workers.

The informant estimated that an extra hour a day by each miner would increase the coal output by 300,000 tons a week. The average production rate now is about 3,700,000 tons weekly, and the governments target for the year is 200,000,000 tons.

The additional output probably would enable Britain to export some coal next year, thus strengthening the nation's hand in international diplomacy while at the same time providing revenue for imports.

Underproduction of coal hastened the British economic crisis. Other causes were the rising prices of goods Britain is purchasing in the United States, the accelerated rate at which the nation's American loan is being spent, and underproduction in industries manufacturing export goods which help pay for imports.

A highly placed government source said a change in Attlee's cabinet might be considered soon, but he ruled out the publicly mentioned possibility that the government might call a general election or invite the Conservatives to participate in another coalition re-

Japanese Report

Continued from Page One

vestigation by experts from the nearby Kure Naval Base was begun at Hiroshima the same day of the bombing.

The first group was joined the next day by a team sent in by the high command, which was stunned by news of the force of the mysterious blast that could destroy half the buildings in Hiroshima and kill 46,000 persons outright. (Later complete figures put the dead at 75,000.)

Discovery that X-ray films in Hiroshima Hospital had been ruined by radiation apparently gave the Japanese the first clue to atomic radiation, the report said.

This was followed by the discovery that a Japanese civilian had made a photograph of the explosion, and the radiation dots appeared plainly on the negative.

The report said a few moments before the blinding flash, one or possibly two U. S. planes dropped three battery-operated broadcast devices by parachute on Hiroshima's outskirts.

The report speculates that these devices, containing a variety of instruments, were recovered by the Japanese. It speculates they were either to set off the bomb or to record its force. Detailed drawings of these devices accompanied the report.

What happened yesterday is this: After a republican plane dropped two bombs on Dutch-occupied Java yesterday, the Dutch air force was ordered to prevent any repetition. Reconnaissance flights were carried out over republican airfields immediately.

In the late afternoon, the last reconnaissance flight observed a twin-motored plane flying low over the tree-topped Jogjakarta airport. A Dutch fighter pilot's report of what occurred said: "Near Magewo (Jogjakarta airport) a republican machine was sighted escaping low across the trees. A salvo was fired, following which the machine struck against a tree and crashed. It presumably was an aircraft of the Helen (Japanese) type."

Memorial Coins. Booker T. Washington memorial half-dollars are on sale at the downtown and uptown offices of The Freeman. Have you purchased one of these coins?

Captain Hickey

Continued from Page One

serve as a War Service Memorial. I realize that your first concern is with the facts of safety and utility. My idea deals with the values of memory and beauty. There are countless ways to mark the bridge as a worthy memorial.

Enclosed is an outline I have presented to various persons, who have found an interest in my suggestion. It is forwarded to you in the earnest hope, that the idea will be granted favorable consideration by the proper powers.

I will be glad to confer with you at anytime. I am writing as an individual. In some 50 U. S. cities there is fixed evidence of my activities and suggestions. These include hospitals, schools, parks, bridges, flood control, highways and numerous civic projects. Some were accomplished when I was under the direction of the Milbank Fund.

You may find some personal interest in a News cutting—which is also enclosed. In December 1937 I was addressing the New York State Publishers Association at Syracuse, N. Y. I was trying to pre-empt the news for 1938. I said that bridges would be big subjects in the headlines of the year. A few days after my remarks the U. S. Canadian Bridge went out with the ice. Later we had over 100 headlines dealing with bridges from coast to coast. Many of these were featured in News Reels. I am now trying to assemble these in a feature film. The Schools of Journalism count this one of the most accurate and unusual news forecasts on record.

Cordially yours, FREDERIC SNYDER. From the Jefferson City Post-Tribune of Jefferson City, Mo., February 30, 1938: "Bridges," said Frederic Snyder, new commentator who stays ahead of the headlines, "will loom big on front pages of the newspapers during 1938."

He made this prediction in an address to the Town Hall at Junior College last night. When he returned to his hotel room he learned that the Golden Gate bridge, the largest single suspension span in the world, had been bent twelve and one-half feet out of line under the force of the hurricane that ravaged the California coast. The news stood out in the headlines of the papers this morning.

Mr. Snyder said that he first pointed to bridges as the big source of news December 15. The famous "Honeymoon" bridge at Niagara Falls was the first to be assailed by "uncontrolled forces likely to make news."

In his address last night Mr. Snyder discussed world conditions taking his hearers from one century to the other. He decried Hitlerism in Germany, Mussolini in Italy, viewed with concern the economic difficulties in France and declared that unless a solution was found this country might suffer from the flare back.

New Reception Announced. New York, July 30 (AP)—Capt. W. G. H. Finch, president of Finch Telecommunications, Inc., announced today a new method of facsimile radio reception in color. Finch said the "colorfax" machine, which he developed jointly with Dr. Laverne Philpott, the company, director of research, can transmit inexpensively in full color from any one point to a multiplicity of receivers, pictures and text to be recorded permanently on any ordinary white paper. With the machine, Finch said, the "ordinary home user of radio receivers will be able to make his own recordings in broad daylight or any type of suitable paper stock." There is no limitation on color range, he said, and pictures are reproduced at the equivalent of 100 lines to the inch, comparable to magazine engraving screens of 100 lines and to the usual 65-line screen of ordinary newspaper color reproduction.

Formal Public Consent. London, July 30 (AP)—King George VI is to give formal public consent to the marriage of Princess Elizabeth to Lieut. Philip Mountbatten at a Privy Council meeting tomorrow under procedure required by the 175-year-old Royal Marriages Act. Mountbatten returned to his naval duties at Corsham Training Station yesterday after spending the last night of his leave taking his bride-to-be and Princess Margaret to "Annie Get Your Gun."

About one-sixth of the total standing saw timber in the United States, exclusive of Alaska, is in Washington state.

Valerio Bids \$19,508 For Widening Roadway

A low bid of \$19,508.50 by Francesco Valerio of Kingston for widening and drainage work on Broadway between Rogers street and Chestnut street was received by the city engineer's department at a special meeting in the mayor's office Tuesday afternoon, Arthur F. Hallinan, city engineer, told The Freeman today.

Two other bids also were reported. The V. J. Constanza Inc. of Kingston, offered a bid of \$19,985. The Tri-County Construction Co., Inc., of Ellenville offered \$20,886.

The three bids have been referred to the city engineer and two commissioners for tabulation and recommendation. The board has the right to reject any bid, it was pointed out.

Traffic deaths in the United States have declined from about 20 per 100,000 motor vehicle miles in 1925 to less than 10 in 1946.

**A STATEMENT FROM THE MAYFAIR**

We regret to leave the uptown business section even though it is only TEMPORARY. The MAYFAIR policy calls for 2 shops in Kingston, one in each major business district and we will return uptown as soon as a new suitable location has been found. To all friends and customers who made the name MAYFAIR mean something on a gift box we say: "Thank You, But Not Goodbye."

In the Meantime—

You'll find all the wonderful brands which we are noted for at our new larger MAYFAIR at BROADWAY and DOWNS STREET (next to Beck's Broadway Market) and (opposite Stock and Cordis Furniture Store.) It is a quality location and a most convenient one with plenty of parking space both meter and non-meter. You will find here the largest stock of women's and misses accessories and foundations in this city. May we prove it to you?

Hasbrouck Park Community Night Illustrates June

Children who participate in the recreation program at Hasbrouck Park entertained with a Community Night Tuesday in the form of scenes representing the months of the year. Joan Orr and Terry Gill were the bride and bridegroom for June. One of the highlights of the show was a children's bathing beauty contest for August. The show was directed by the Misses Helen Ward and Rose Dempsey, playground supervisors. Edward Ward was the pianist. (Freeman Photo)

Dates for Kingston National Dinner Club and speakers for the coming season have been announced. All have been arranged for the third week of the month. They are: October 23—Ruth Bryan Owen Rohde, former Congresswoman and diplomat; November 18—Jesse Stuart, poet; January 15—Dr. Kirtley Mather, educator, scientist and author; February 24—Henry Shapiro, dean of foreign correspondents in Russia; March 17—Col. John D. Craig, deep sea adventurer; Col. Stewart Roddie, popular English lecturer. Announcement has also been received by the local office of the National Dinner Clubs and Knif-

Flower Hats Created At Gardens Club

The Little Gardens Club members made hats in a contest at the meeting Friday afternoon with Mrs. G. A. Nussbaum, West Hurley. Sixteen of the members brought hat foundations and fresh foliage and flowers for materials with which they worked during the meeting. Afterward the members voted for the best hat.

Mrs. William Niles won first prize with a Day Lily hat made with the lily foliage and a few leaves for accent and topped by the bright yellow lilies.

Mrs. William Taylor received second award for a hat of lily leaves and a variety of garden flowers built on ring frames to tilt over the forehead.

An honorable mention prize was given Mrs. William McNamee for a creation designed with an aluminum mold pan and bunch of carrots.

Mrs. Nussbaum, hostess, worked up a Lillian Russell era hat with a large black hat foundation trim-

med with hydrangea blossoms in a feather effect. Following the meeting Mrs. Nussbaum with Mrs. McNamee as co-hostess served refreshments. Guests of the club were Mrs. Elsie Meyer, New Orleans, La.; Mrs. Clarence Robinson, Glen Falls; Mrs. Edgar Waldeck and Mrs. Matthew Williams, West Hurley. The next meeting August 8 will be announced.

Dorothy Starace, Former Resident, Will Be Married

New York, July 29 (Special)—Miss Dorothy Anne Starace, formerly of Kingston, now of 24 Thayer street, New York, and Richard Sheldon Trepel, a florist, of 1 St. Paul's Court, Brooklyn, obtained a marriage license here today at the City Clerk's Office. The couple did not announce their wedding plans.

The prospective bride was born in Kingston, the daughter of Edward J. and Harriette H. Starace. Mr. Trepel, the son of Adam A. and Ada P. Trepel, was born in New York.

AND GRASS IN HIS CRACKED STONE DRIVEWAY—

Thank to F. DARIUS BENHAM NEW YORK, N.Y.

Copyright 1947 by King Features Syndicate, Inc. All rights reserved.

Headed Fight
There he lies at the curb, stark still, Seedy clothes and bowery whiff, A poor old man, past all anointing. I hope he goes where his toes are pointing.
—Herbert Bechtold.

An Indian named Joe wowed a small Canadian community with his uncanny ways of predicting changes in the weather. Month after month, his dully predictions came true.
One day it was particularly miserable—rain, wind, cold.
Hunter—"Joe, when will all this blow away?"
Indian—"Tunno, radio he broke."

The valet of a certain man was called into court to testify.
District Attorney: "Now how old is Mr. Jones?"
Valet: "I don't know. I never put my hand in his mouth to inspect his teeth." (winking at the jury).
There was a slight titter in the courtroom. The district attorney redoubled, then returned to the attack.
District Attorney: "I think you have done right. From all we can learn he is a man who would put the bite on almost anyone."

Significant Signs
Pawnbroker's Sign: See me at your earliest inconvenience.
Beauty Shop: If your hair isn't becoming to you, you should be coming to us.
Sign Painter: We made signs before we could talk.

Laundry: We soak the clothes, not the customer.
In the Elevators of a Duluth Hotel: You are never fully dressed until you wear a smile.

Father—Can you give my daughter the luxuries to which she is accustomed?
Sutor—Not any more; that's why I've asked her to marry me.

A pound of butter and a dozen of eggs. Where did that dollar go to?

The mother of a careless little girl constantly corrected her, telling her to keep her things in better order. Her mother's warning had little effect.

One day, however, her mother

came home and found the little girl frantically putting everything in place. Her mother, rather astonished, said:

Mother: "You are doing a wonderful job; what made you decide to put things in such good order?"

Little Girl: "Why, Mother! Didn't you see the story in the paper about two girls being arrested and put in jail for having a disorderly house?"

When black pepper practically disappeared and white pepper became hard to get, many cafes served shakers with smaller holes, says Pathfinder. One restaurant operator plugged the holes entirely. Diners would shake the white pepper container. Nine out of 10, he said, thought they had peppered their meat and were content.

The Governor had gone to the State Insane Asylum to look over the work done by a new superintendent.

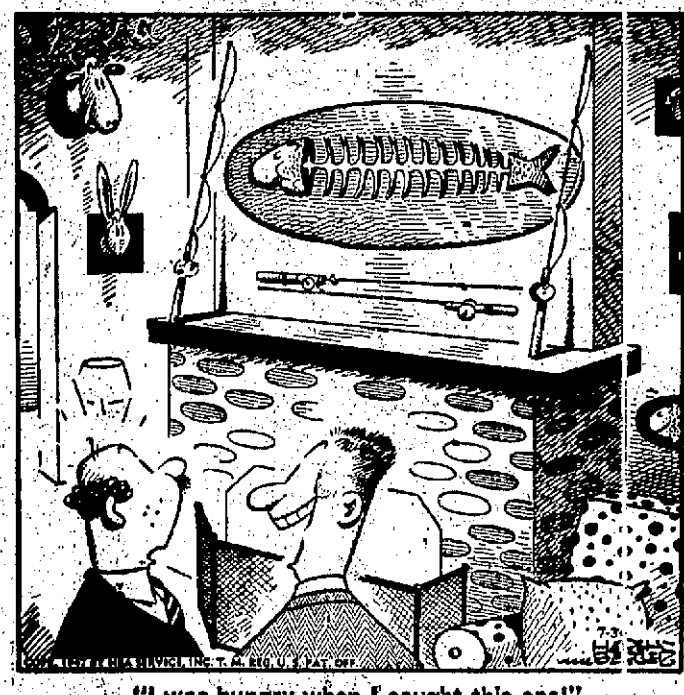

While there he had difficulty in getting a telephone connection. Exasperated, he shouted to the operator:

Governor: "Look here, girl, do you know whom I am?"
Operator: "No, but I know where you are."

Nothing is more easy than to clear debts by borrowing.

MT. MARION

Mt. Marion, July 29—The Rev. John J. Van Hecst of Kiskatom filed the pulpit in the Mt. Marion Church Sunday. On August 3 the Rev. Arthur E. Oudemool of Kingston will be the guest preacher.

Mrs. E. H. Myer is visiting her daughter at Shavertown. The Ladies' Aid Society will hold a meeting in the church hall on Thursday night, August 4.

Miss Kathryn Wolfe of Brooklyn has been spending her vacation with Mr. and Mrs. Raymond Crispell.

Alfred Quitch of Brooklyn is visiting Mr. and Mrs. George Gilson.

The Junior Service League will

hold their annual picnic at the home of Eleanor Felton Saturday evening, August 2.

Edward Desch of New York has been visiting Mr. and Mrs. August Desch.

Alfred Quitch of Brooklyn is visiting Mr. and Mrs. George Gilson.

Mrs. Elsie Smith of Brooklyn visited Mrs. Augusta Werner last week-end.

Mrs. Harry Mack and son, Robert, of Newburgh, are spending some time at their home here.

Mrs. Myra Bevier, Mr. and Mrs. Albert Bevier and daughter, Cynthia, of Briarcliff Manor, visited Anna Bevier last Friday.

Mr. and Mrs. George Adams are on a motor trip through the New England States and Nova Scotia.

Mrs. Ella Cappers of New York is visiting her sister, Mrs. Michael Connelly, in the Walsh bungalow.

Mr. and Mrs. William Cramer and daughter, Janice, of Brooklyn, have been visiting Mr. and Mrs. August Cramer.

Mr. and Mrs. Oscar Wey and family have been spending their vacation at Cleveland, Ohio.

The Misses Mary and Catherine Quinn of Brooklyn were recent guests of Mr. and Mrs. Fred Osterhoudt.

Mr. and Mrs. George F. Axt and daughter, Barbara, of Englewood, N. J., are guests of Mr. and Mrs. Warren D. Myer.

A social party was held at Mt. Marion Center on Tuesday evening for the benefit of the fire company.

200,000 Flags Distributed

Washington, July 30 (AP)—The Veterans Administration said today it has distributed about 200,000 American flags for funeral purposes to the next of kin of deceased war veterans, servicemen and ex-servicemen. The agency began providing the burial flags, which cost about \$4.50 each, to next-of-kin without charge in 1943. After the funeral, each flag becomes the property of the relative to whom it was presented.

Oceans cover nearly three-fourths of the earth's surface.

Martin Says

Continued from Page One

been approved, but if I was directed (by government officials) to join such a combination I would do so.

"He explained he thought he could get the government to direct me to join with others to build these ships."

In reply to a question from Ferguson, Martin said it appeared that Kaiser thought he could change the entire military program approved by the army and navy.

Kaiser contended before the committee yesterday that the aircraft manufacturers opposed his wartime move to enter their field.

In response to questions, Martin denied that there is any "monopoly" in the field, adding that aircraft manufacturing at present is "highly competitive."

Kaiser and Hughes first contracted to build a flying boat in about 18 months.

On the question of time, Martin said it took 600 engineers and artisans four years to perfect the Mars.

At the end of that time, he said, a second ship might have been turned out in 20 months and mass production brought about four months later.

He said a "Mediocre" cargo ship might have been put together in about 30 per cent less time.

Child, 6, Is Hurt

When Hit by Car

Thelma Hahn, 6, daughter of Mr. and Mrs. Wilfred Hahn, of 55 Sycamore street, was reported in "good" condition at the Kingston Hospital this morning after being struck by an automobile Tuesday evening on Yeomans street.

Alfonso Farata of Main street, Marlborough, was the driver of the car, according to the police.

Miss Hahn, who was admitted to the hospital about 7:25 o'clock last evening, was reported suffering from lacerations about the head. Preliminary reports indicated a possible skull fracture but a later X-ray showed none was sustained.

The injured girl was brought to the hospital by Tony Alecca, a former city employee who resides at 85 Gill street.

According to the police, Farata, operating a 1941 Plymouth coupe, was driving along Gill street when he turned into Yeomans street. The driver told police that Miss Hahn, who was riding a tricycle, ran off the curb at that point and into his car.

Woman Will Be Given

Trial on Assault Charge

Mary DeGroat, 44, 29 Jansen avenue, pleaded not guilty to a charge of third degree assault when she appeared before City Judge Matthew V. Cahill in court this morning. The case has been adjourned until next week when a jury will be selected.

The defendant, released on bail, was arrested about 4:07 o'clock Tuesday afternoon by Officers Hoffay and Schoonmaker; the police reported.

William A. Kaercher, attorney, represented the defendant.

Irish Tongue Promoted

Ardent proponents of the Gaelic language in Elre are promoting the idea of having the Dail transact all its business through the medium of the Irish language, but Eamon de Valera thinks the time has not yet come for it. Replying to E. O'Neill, a Dublin member of the Dail, de Valera said he believes there still are not enough deputies with a knowledge of Irish to make the change practicable at present. If they carried out the member's suggestion now, there would be complaints of injustice and a feeling that some persons whom the electorate wanted in office could not serve because they were not competent Irish speakers.

Pronunciation Changed

The original pronunciation of "geyser," which is an Icelandic word, was "geiser." This was later changed to "geyser" and finally Americanized to "gyser."

ULSTER PARK

Ulster Park, July 30—The Reformed Church will be closed for the next few Sundays while the pastor, the Rev. Harry Christians and his family are enjoying their vacation. The consistency of the church is having the church yard graded and making a new entrance from 9-W.

William Atkins of Westfield, Mass., and his sister, Patricia Atkins of Schenectady visited the Story-Gendreau family on Saturday evening.

Mrs. Edward Carpenter of Coytesville, N. J., spent a few days last week with her sister, Mrs. Holt N. Winfield.

Mr. and Mrs. R. C. Gendreau entertained at a picnic supper on their lawn Sunday evening the following guests: Mr. and Mrs. H. H. Crispell and son of Newburgh, Miss Evelyn Crispell of Hurley, Mrs. Charlotte A. Peck of Templeton, Mass., and Mr. and Mrs. H. N. Winfield of Ulster Park.

The Rev. and Mrs. Gerrit Timmer of Stone Ridge, the Rev. and Mrs. Robert Baines of Hyde Park

and the Rev. Frank Butler of West Park, were among the guests at the reception given the Rev. and Mrs. Harry Christians by the congregation of the Reformed Church last Tuesday evening.

About 80 were present. The Ladies' Aid Society presented the Rev. and Mrs. Christians with a mahogany table.

Mrs. Edward Hier of Albany spent the week-end with her mother and daughter at their summer home here.

Conerty Is Arrested

Edwin Conerty, 22, of 276 Main street, Kingston, was arrested yesterday by Deputy Sheriff Raymond Wins on a charge of violation of parole. Conerty was arrested on a parole board warrant and was taken to the county jail where he still will be held pending further action by the State Parole Board.

'High Tor' Results In Patron Shooting

Fishkill, N. Y., July 30 (AP)—A summer theatre's production of Maxwell Anderson's "High Tor" moved smoothly to a dramatic climax last night with bank robbers on-stage shooting at the ghosts of Dutch sailors when Miss Joan Elizabeth Clarke, 26, of Beacon, N. Y., rose calmly from her front row seat and walked to the rear of the theatre.

"I've been shot in the left leg," she told Manager Louis Tappe, David B. Pritchard of Washington, D. C., sound effects man, was arrested on a charge of second degree assault.

Pritchard was in the second balcony at the time, Lawson said, and had fired a .22 rifle into a barrel of sand. The state policeman said the slug had passed through sand and barrel bottom and through a three-inch flooring before striking Miss Clarke.

Lawson said everyone was calm and apologetic about the case which will be pondered by a justice of the peace today.

Skeleton Is That

Continued from Page One

that the surfaces on the teeth are markedly worn.

That the skeleton was originally the body of a male is evidenced by the fact that the bones are large, in general, and that the pelvic bones show a deep narrow pelvis rather than the broad, flat pelvis characteristic of a female.

A lower heavy jaw further strengthens this contention. That the individual suffered from osteomyelitis, an inflammation of the bone and marrow, is indicated by the fact that Dr. Taylor found considerable thickening in one of the fibular bones as from suppurative laying down of the bone (ossification of the bone tissues).

The femora, the examination disclosed, were bowed, suggesting that the individual must have suffered from rickets in his early years, but there was no confirmation for this supposition from an examination of the vertebral column.

The Citro property, where the skeleton was discovered, was purchased in 1919 from Emily Peters, who originally bought the house and land from Mrs. Myers. The house itself was constructed more than 60 years ago by George B. Eling for Eling Schoonmaker.

Patterson Loses Title

London, July 30 (AP)—Jackie Patterson of Scotland was stripped of his world flyweight title today by action of the British Board of Boxing Control. He had been summoned before the board after he failed to weigh in for a scheduled championship bout July 16 with Dado Marino of Honolulu.

World registration of motor vehicles in 1946 was 44,930,000.

Heavenly Rest From POISON IVY

Was your poison ivy rash with HORRIBLE POISONOUS BUBLES? Now you can get relief from the itching, burning, and swelling of the rash. See how it works. Apply the cream to the affected area. The cream will soothe the skin and prevent the rash from spreading. It will also help to remove the poison from the skin. The cream is made from natural ingredients and is safe for use on all parts of the body. It is the only cream that has been tested and found to be effective against poison ivy. Buy it today. It will save you a lot of trouble and money.

Returned From the Deep
The schooner A. Ernest Mills, carrying a cargo of salt, sank off the coast of North Carolina after being rammed. Four days later, she bobbed up to the surface. The salt had dissolved during that time.

Colombia faces upon both the Pacific ocean and Caribbean Sea.

Insect Control Is Necessary to Save Fruit Crop

Warning that Pear Psylla, the typical genus of jumping plant lice, is building up in various orchards throughout the county, Assistant County Agricultural Agent Walter Baran, announced this morning that immediate control measures must be taken or the insects will smother the fruit. Baran said that the second brood coding moth will also appear around the first week of August.

Wettable sulphur, used at the manufacturer's directions, and mixed with one pint nicotine sulphate, one pound of spray lime and 100 gallons of water, comprises the spray which should be applied to the pear trees now, or when the first hard shell psylla becomes apparent.

If sulphur or D.D.T. are not used, Baran suggests a mixture consisting of one gallon of summer-oil emulsion added to one-half pint of nicotine sulphate and 100 gallons of water.

Baran explained further that the second application of the peach plum and prune spray should be made to control oriental fruit moth, peach tree borer, Japanese beetle, and plum curculion.

Robert Stauding, Hunley avenue, suffers injuries when southbound West Shore train struck his car on grade crossing at Glenelg Lake Park.

Hull of the former Cornell line tug, John N. Corbitt, burned on Rondout creek flats. Believed young boys set fire to the hull.

Woman Sells Flowers To Finance Divorce
Reno, Nev., July 30 (AP)—The daughter of a prominent Philadelphia churchman turned flower girl to help finance the divorce she won from an army doctor here yesterday.

Mrs. Ruth Edmonds, 23, daughter of the Rev. Donald Grey Barnhouse, Presbyterian pastor of the Tenth Church in Philadelphia and a former radio preacher on national networks, was awarded a divorce from Dr. Francis Charles Edmonds, Jr., of Glen Cove, Long Island, N. Y. She charged extreme mental cruelty.

While establishing Nevada residence, she sold corsages on the Reno courthouse steps to prospective bride couples, telling friends she was working to pay her expenses here.

She and Edmonds were married August 11, 1941, at Santa Fe, N. M. A sealed agreement settled property rights and custody of two children.

Twenty and Ten Years Ago

July 29, 1927—Justice G.D.B. Hasbrouck mentioned by New York Herald Tribune as possible nominee for court of appeals office in fall election.

Mrs. Helen V. Vrooman, former resident, killed by automobile in New York.

July 29, 1937—Announcement is made that various governmental offices are slated for new post office building.

First Lt. Edwin J. Messinger, wife and daughter, are reported among Americans registered in Tientsin, scene of Chinese-Japanese conflict.

Mrs. Nancy Schoonmaker, Woodstock, receives designation as candidate to succeed the late Philip A. Goodwin, Catskill, as Representative in Congress.

July 30, 1927—Policeman James Welch struck in arm by lightning during thunderstorm.

Miss Julia Jensen, 80 Pine street, knocked down in collision of two cars at Fair and Pearl streets.

Trinity Methodist Church closes for month for renovations.

July 30, 1937—Charles Ferro, 48, Milton, in serious condition at Kingston Hospital after suffering gunshot wound inflicted by John Miller, Woodstock, R.D.

Robert Stauding, Hunley avenue, suffers injuries when southbound West Shore train struck his car on grade crossing at Glenelg Lake Park.

Hull of the former Cornell line tug, John N. Corbitt, burned on Rondout creek flats. Believed young boys set fire to the hull.

Deaths Last Night
(By The Associated Press)
Dr. Charles E. Sharp

Elgin, Ill.—Dr. Charles E. Sharp, 86, who founded a school for maladjusted children, died here last night. He was 86 years old and had been ill for some time.

Holy Name Meeting
There will be a special meeting tonight of St. Mary's Holy Name Society in St. Mary's School hall at 8 o'clock. Plans for the annual clambake will be made at this time. All members are asked to be present.

Memorial Coins
Booker T. Washington memorial half-dollars are on sale at the downtown and uptown offices of The Freeman. Have you purchased one of these coins?

Correspondent

Continued From Page One

sary of his entry into The Freeman's editorial field. His first efforts at news gathering for quite a spell, was submitted in long-hand, and later on these labors were speeded up by the acquisition of one of those heavy old Oliver No. 5 typewriters—a machine now definitely rated in the antique class. His scribbling currently is done with a Remington portable (his second one) that still functions with fairly legible type.

There have been sundry interruptions in our labors from time to time—illness, the war (War I, that is), vacations, etc.; still, strange but true, The Freeman presses kept right on grinding out one of the best daily papers in the Empire State.

Your columnist on occasion has been the target for adverse criticism, a few of them tipped with extra long and sharp barbs; but these lambastings, such as inevitably fall to the lot of every newspaperman, whether urbanite or from back in the sticks, soon lost their sting. Numerous appreciative and complimentary bouquets have been tossed this way by readers at home and abroad.

The pounding-out of literally hundreds of full columns of new items, a weekly resume of doings at the Boiceville C. C. C. camp during one year, and many historical and other feature-stories—these indeed have been a pleasant chore, all down the years.

ADVERTISEMENT

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys
If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

Thank kidneys are Nature's filter, they filter out excess acids and poisonous waste out of the blood. They help most people pass about 2 pints a day.

If the 16 miles of kidney tubes and filters don't work well, poisonous waste material stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, feeling up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent uric acid passages with smarting, burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 16 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Salvation Army Financial Drive Here Lacks \$1,600

An additional \$1,600 is still needed to reach the fund campaign objective of the local Salvation Army; it was announced today by the maintenance unit of the organization.

The local advisory board says that factory solicitations have been far behind in this year's drive and that 300 letters with new appeals had been mailed out. It is hoped that the drive can be completed by the first week in August.

The board said it felt that if the friends of the Salvation Army, who have not yet contributed this year, were to do so, the goal would be reached.

Attention was called to the fact that those who support the Salvation Army "are promoting a service to your fellowman, which is immeasurable in value."

Continuation of the drive is

Back Again!

Wards VITALIZED Motor Oil

Makes Motors Last Longer...

Yes... Plenty of "old busses" are still purring along on Vitalized! Here's why: Vitalized improves the flow of wear-preventing lubrication! Vitalized's tough oil film prevents metal-to-metal contact, makes motors last longer! Put Vitalized oil in your crankcase, now!

CLEANS AS IT LUBRICATES
Vitalized removes power-stealing formations from your engine... suspends them... drains them out! Vitalized keeps your engine clean!

WARDS SELL BETTER OIL FOR LESS
Vitalized costs as much to make as any top oil! Sells for less because Wards buy and sell huge quantities without "middleman" cost. You share the big savings as better oil for less!

CONSISTENCY

Fancy claims are often made for things we need to buy—coffee for instance. A coffee must be really good to back up a claim of quality. All of us have had poor coffee at some time or another, while traveling or at home, both on ship and ashore. Naturally, we put up a kick about this, but sometimes take good coffee as a matter of course. If we pay a good price for coffee—it should be good! Our firm has consistently sold "26" Coffee at the most economical price a good coffee can be produced with top quality constantly maintained.

4-H Forestry Training Camp In Caroline Hills

The Ulster County 4-H office revealed this morning that Spruce-Top, a 40-acre plantation of which half now carries close to 20,000 Christmas trees, and the remainder hardwoods, will be the scene of a 4-H forestry training camp in the Caroline Hills of Tompkins county, September 7 to September 13.

The camp is open to boys 15 years and over who have completed two years of 4-H forestry and are now enrolled in their third year. Because of limited facilities, only one boy from each county will be selected, and a total of 15 boys accommodated. Selections by the county 4-H agent will be made by August 10 on the basis of the young forester's record, interest and ability.

The new camp project, the first of its kind in New York state, is patterned after similar ones in the south for 4-H members and vocational agriculture students, according to Professor J. A. Cope, Cornell University extension forester and camp director.

Sponsors, who are making possible advanced forestry work for the selected group comprise the International Paper Company of Glens Falls, the West Virginia Pulp and Paper Company, of Mechanicville, the St. Regis Paper Company of New York, the Raquette River Pulp and Paper Company of Potsdam, and Finch, Pruyn and Company of Glens Falls. They have contributed a sum total of \$400 to this camping project.

According to those in charge, the camp provides an ideal situation for teaching forestry practices. Professor Cope will be assisted by Fred E. Winch, Jr., assistant extension forester at Cornell, and Professor F. E. Heinzelman, assistant State 4-H club leader.

WHITFIELD

Whitfield, July 29—The ladies of the Reformed Church will hold their fair and supper on the church lawn Wednesday, August 6. Supper will start at 5:30 and ice cream and other refreshments will be on sale.

Mr. and Mrs. Charles Kelder, Mr. and Mrs. Edward Kelder attended the firemen's parade at Port Ewen on Saturday.

Mrs. Archie Hall Davi, entertained a member of young people at a picnic supper at her home Sunday evening.

Mr. and Mrs. Cortland Van Gorder and daughter spent last week with Mrs. Jennie Barley.

The Amazon river contains 30,000 varieties of fish.

SHOKAN

Shokan, July 30—Miss Joyce Merrihew, a member of the Saugerties High School faculty, is spending a month with her parents, Mr. and Mrs. Floyd Merrihew of Ashokan. Miss Merrihew who was graduated with high honors from the Plattsburg Teachers College last June, has completed a period of summer work at the Saugerties school.

Clarke Puffer of Schenectady spent the week-end with his wife and daughter and Mrs. Puffer's father, Ole Wright, at the family place on the north reservoir boulevard.

Mr. and Mrs. James Staunton and three children arrived here Sunday for their annual vacation stay in the village center.

The annual of the Ashokan Methodist Church fair has been set for Wednesday, August 13, at the church hall.

Huckleberries are selling at 50 cents a quart locally. Wild blackberries have begun to ripen fast as a result of the damp, warm weather. The crop appears about as good as last year's but the picking evidently will extend over a much shorter period this season.

Net proceeds from the dance given in Odd Fellows Hall by the members of Olive Legion Post amounted to more than \$170.

July 30, 1877, many residents of Shokan and other Olive communities journeyed to Kingston by wagon and train to take part in the celebration of the inauguration of George Clinton as first governor of New York. The country seat was gaily decorated and it was estimated that 30,000 persons enjoyed the festivities.

Dr. Henry Johnson of New York was a week-end guest at the summer home of his friends, Mr. and Mrs. Denis T. Lynch.

Mrs. Carl Schock has returned to her home in Ashokan and is getting along well after having been a hospital patient for several weeks. Mrs. Schock underwent an operation on her throat and was under the care of Dr. W. S. Bush of Kingston.

Mrs. Leonard Guglielmo and children of New York are spending the summer at the home of their relatives, the Charles Rodriguez and Felix Sierra families, in the Coons neighborhood.

A new flag is needed to replace the tattered Old Glory which now hangs from a badly rusted staff atop the servicemen's memorial tablet in the village center.

Members of the Ashokan Reservoir maintenance force are cutting grass and weeds along the north boulevard between Ashokan and West Hurley.

Mrs. Gould Personous of Route 28 has invested in a Chevrolet coupe.

Wednesday, July 29, funeral services were held for Abram DeWitt, well known resident of the town of Olive.

The Thursday evening prayer meetings for the convenience of communicants of the Ashokan, Glenford and West Hurley M. E. Churches and other interested persons are being continued at the Glenford Church. Services begin at 7:45 o'clock.

James Dolan, one of Ashokan's newer residents, has employment with a Bearsville cleaners and dyers establishment.

Harold Corwin of Astoria, L. I.

Real Estate Transfer

Deeds Recently Filed in the Office of the County Clerk

The following real estate transfers have been recorded recently at the county clerk's office:

Marbletown—Walter R. Hand-sell, Chilton, N. J., to Christina Handsell, 1009-1015 Central avenue, Union City, N. J.

Rosendale—St. Peter's Roman Catholic Church to Michael Spada and Robert Ablesove, 41 Crane street, land in the township.

New Paltz—William H. Gruner, Jr., of New Paltz to Helena M. Babcock of the same place; Helena M. Babcock to Stanley and Juanita D. Osborne of New Paltz.

Wawarsing—Winnowaska Estates, Inc., of New York city to Joseph C. and Florence Cosgrove, 40-65 10th street, Long Island City.

Kingston City—Annie T. Ackley, Congers, N. Y., to Margaret K. Hutton, 120 Elmendorf street.

Saugerties—Salvatore and Anna M. Salotto, Yonkers, to Louis R. Michel of Maiden.

Marlborough—Carmela Ruggerio of Marlborough to Kenneth and Roberta E. Sutton, Fishkill.

Plattekill—Alexander Conforti of New York to Concettina D. Armo, 409 East 9th street, New York.

Shandaken—Clair A. and Grace O. Haynes of Highmont to Frances Gaetick, 172 West 225th street, New York.

Esopus—Horace M. and Gladys S. Woolsey of Port Ewen to James J. and Elaine O'Reilly, Winona Lake, Newburgh.

Kingston City—Mathilda J. Cole of Kingston to Thomas J. Martino, Ulster street, Kingston.

Mistake Wins \$97,000

A slip of the tongue won James Anderson, London, bus conductor, \$97,452. For months, Anderson entered the same 36 lines in a weekly "penny points" pool. One day his wife, reading out the list to him, made a mistake. Instead of calling X 1 2 X, she said X X 2 X. The "wrong" cross won first prize.

LOOK OUT FOR PIN-WORMS

Recent medical reports reveal that an amazing number of our countrymen (and women) may be victims of Pin-Worms—often without suspecting what is wrong! And these pests, living inside the human body, can cause real distress.

So watch out for the warning signs that may mean Pin-Worms—especially the annoying rectal itch. Get JAYNE'S P-W and follow the directions.

P-W is the Pin-Worm treatment developed in the laboratories of Dr. D. Jayne & Son, after years of patient research. The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms.

Ask your druggist: P-W for Pin-Worms!

spent the week-end with his family at their summer home on Church Hill. The two Corwin children who have been seriously ill are around again.

The L. F. Ruckert boarding-house in the village center is caring for 23 city guests.

Cards were received here last

week from Judge Roger H. Loughran of Hurley who was on a vacation trip to Brunswick, Me.

It's a Fact: The neighboring town of Hurley, named for the Barons Hurley of Ireland, was granted by patent October 19, 1708. A part of the great Hardenbergh Patent was released by Mar-

garet Livingston in 1789 and annexed to the town, and subsequently parts of New Paltz, Esopus, Olive and Rosendale were added to Hurley. Seventy-five years ago, several hundred men were engaged in the town's blue-stone industry whose output was some 200,000 tons annually.

Alcoholism Topic At Health Conference

Saratoga Springs, July 30 (AP)—Many chronic alcoholics could be saved if they were treated as sick persons rather than criminals early in their excessive drinking, Dr. Lyman C. Duryea, medical director of the research council on problems of alcohol, declared today.

Addressing the annual conference of the New York State Health Officers and Public Health Nurses Association, Dr. Duryea said chronic alcoholism is definitely a public health problem. There are some 3,750,000 excessive drinkers in this country, and about 750,000 are chronic alcoholics, he said. Six times as many men are heavy drinkers as women, he added. New York state ranks third with an estimated chronic alcoholic rate of 1,034 persons per 100,000 of population—an increase of 34.3 per cent over its rate in 1930 when New York ranked eighth among the states.

Immanuel Lutheran Meeting Thursday

A special meeting of the voting members of Immanuel Evangelical Lutheran Church, Livingston street, has been called for Thursday evening at 8 o'clock. A formal call will be extended to a teacher for the upper grades of the Christian Day School to succeed George Weil, who recently resigned to accept a position in Evanston, Ind. The teacher will also serve as principal of the school and church organist. The list of prospective teachers will be drawn from a number of active teachers who are graduates of one of the normal schools maintained by the Lutheran Church, Missouri Synod.

MacKinnon Tells Lions How He Regained Eyesight

John L. MacKinnon, chiropractor, was guest speaker at the Kingston Lions Club regular weekly luncheon meeting Tuesday. He took as his topic his personal experiences in regaining lost eyesight.

Stricken with an ailment 37 years ago, which necessitated medical treatment on his eyes, he said the treatment proved disastrous as tender tissues surrounding the eyes were burned, and his eyesight impaired to such an extent that he only had four per cent vision.

This boyhood accident prompted him to seek the advice of eye specialists all over the country, but doctors warned him that an eye operation was very delicate, and even if such an operation improved his eyesight it would be shortlived. Hopes of ever regaining his eyesight waned until a few years ago when he heard of a New York specialist, Dr. Castroviejo, who informed him that he would be willing to undertake the operation.

In June of last year he was prepared for an operation on one of his eyes. He was given general anesthesia and after an operation that lasted only 12 minutes had to lie in bed for approximately two weeks before the bandages were removed from his eyes. The result was nothing short of miraculous, he said. When the bandages were removed, he gradually discovered that his eyesight was greatly improved.

The operation consisted of the removal of the cornea and the implantation of another cornea, a delicate procedure involving extreme care and professional skill. The transplanted cornea, that transparent part of the coat of the eyeball which covers the iris and the pupil admitting light, is ordinarily taken from the eye of a person immediately after death.

Dr. Castroviejo, who has his own private hospital in New York's East Side, is who is the originator of such operations, discovered that a cornea can be removed from a dead person's eyes and transplanted to a living man's eyes, with wonderful results. His clinic prevails upon people to donate their eyes upon death for the cause of humanity. In such cases, eyes are taken immediately

to the eye clinic, the cornea treated and tested and if proven satisfactory is sealed in bottles and prepared to be used for such operations. It was a similar procedure that benefited Mr. MacKinnon. A few months after the first operation, his other eye was operated upon and today he finds that his vision has improved from four per cent to 80 per cent.

People who are in no way hampered by defective eyesight will find this difficult to understand, Mr. MacKinnon says. He said that he had just about given up hope as to ever seeing well again, but his recent operations have given him new courage and have prompted him to become vastly interested in any project concerning improvement for the blind.

Opportunity to Enter Field of Tree Surgery

Albany, July 30—Opportunities for at least 50 young men to enter the field of tree surgery were announced here today by Charles H. Sells, state superintendent of public works. Applicants accepted for the new positions will be sent to Babylon, Long Island, for a two-week course in tree pruning preparatory to assignment to field work in each of the department's ten districts.

Men accepted for the new positions will be engaged in work designed to preserve and enhance trees along highway roadways. Year-round employment will be available in this new type of roadside development activity. Men under 25 years of age are desired for the posts, it was stated. The first training school for tree pruners is scheduled to open with the next few days. Subjects to be covered in the training course include safety in climbing and handling equipment, tree identification and pruning principles. Crews to which the men will be assigned will be equipped with all-weather trucks similar to those used by utility companies, gasoline power saws and standard tree pruning equipment.

Memorial Coin
Booker T. Washington memorial half-dollars are on sale at the downtown and uptown offices of The Freeman. Have you purchased one of these coins?

LET'S EAT!

Air Cruise Offers Fine Meals

BY GAYNOR MADDOX
NEA Staff Writer
When you board a globe-circling clipper, don't worry about carrying along your own sandwiches.

Here's what distinguished passengers ate on the clipper American during its recent initial round-the-world flight.

On the first night out, dinner was served at five o'clock. Grapefruit, maraschino, hearts of celery, asparagus, and olives started off the meal. The main course featured filet mignon surrounded by a salad, a small brown potato, and garden peas. Dessert consisted of a paper cup of ice cream tart, a regular standby on all clipper trips. The ice cream is frozen in a chocolate sauce topped with whipped cream. Also coffee or tea was to be had for the asking. For late snacking, the galley was well stocked with cold cuts and Swiss cheese. There was also a variety of fruits and fruit juices. Freshly baked Danish pastries served with paper cups of strong coffee were given the passengers early in the morning to get them off to a good start.

The "wine cellar" was filled with the finest of liquid refreshments. At one time alcoholic beverages were forbidden on aircraft, but now, drink is considered helpful in untangling those knots in the pits of sensitive stomachs and in setting jangled nerves. The galley's shelves were restocked in London, and the following day in Istanbul, Turkey. Next came Karachi, India, and

Dewey at Flint
Owosso, Mich., July 30 (AP)—Gov. Thomas E. Dewey will beat the muffled tom-toms of his campaign for the Republican presidential nomination before the elite of Michigan's G.O.P. at a dinner in Flint tonight. The New York governor's Flint appearance is a follow-up to a three-hour conference he held here yesterday afternoon with a group of Republican leaders in which the subject of delegate support at the 1948 national convention was gingerly avoided.
